BSc, Software Engineering
2023

SKILLS

Surafel Kassahun

PROFESSIONAL SUMMARY

Software Engineer with professional experience developing backend and full-stack applications, business systems, APIs, and database-driven solutions. Skilled in **Node.js, Python, FastAPI, Express.js, REST APIs, MongoDB, MySQL, React.js, Next.js, and React Native**. Experienced in authentication, business logic, database design, third-party integrations, application troubleshooting, and deployment. Also experienced in IT support, system troubleshooting, hardware/software configuration, network connectivity, and user support. Strong problem-solving mindset with a focus on building reliable, maintainable, and practical technology solutions.

EXPERIENCE

Full Stack Developer / Senior Developer

TILLA / YYDTS | ETHIOPIA

September 2023 – Present

- Develop and maintain full-stack business applications supporting operational and commercial workflows.
- Design and implement backend APIs using **Node.js, Express.js, Python, and FastAPI**.
- Develop database-driven applications using **MongoDB and MySQL**, including data models, queries, relationships, and business logic.
- Build authentication and authorization systems with role-based access control.
- Develop APIs for customer, product, sales, order, inventory, and business management processes.
- Integrate backend systems with web and mobile applications through REST APIs.
- Developed an order-management/CRM system using **FastAPI, MongoDB, JWT authentication, and React Native/Expo**.
- Implemented inventory and stock-movement logic for sales, returns, restocking, damage, and adjustments.
- Built and maintained business integrations, including Telegram-based shopping and delivery workflows.

- **TECHNICAL SKILLS**

- **Backend:** Node.js, Express.js, Python, FastAPI, REST APIs, JWT Authentication

Frontend: React.js, Next.js, JavaScript, HTML, CSS, Tailwind CSS

Mobile: React Native, Expo

Databases: MongoDB, MySQL, SQL, Database Design

Development: API Development, Microservices Concepts, Authentication, CRUD Systems, Business Logic, Third-Party Integrations

Tools: Git, GitHub, Postman, VS Code, Docker, Linux, Render

IT Support: Windows, Hardware/Software Troubleshooting, Network Connectivity, Wi-Fi/LAN, Printers & Peripherals, System Configuration, User Support, IT Asset Support

Other: AI Tools, Workflow Automation, Technical Documentation, System Troubleshooting

- Troubleshoot application, database, deployment, and connectivity issues and implement practical solutions.
- Work with different departments to understand business requirements and translate them into technical solutions.
- Provide technical assistance and support to users when they encounter application or system-related issues.

SELECTED PROJECTS

Tilla Order Management & CRM System

FastAPI | MongoDB | React Native | Expo | JWT | REST API

- Developed a business management system for customers, products, orders, inventory, users, and sales operations.
- Implemented role-based authentication and authorization.
- Built inventory management and stock-movement functionality.
- Developed REST APIs consumed by a mobile application.
- Deployed backend services to a cloud hosting environment.

Telegram Shopping & Delivery System

Node.js / Backend APIs | MongoDB | Telegram Integration

- Developed backend functionality supporting Telegram-based product ordering.
- Implemented customer-specific pricing and order processing.
- Integrated delivery-related workflows with business operations.

Business Web Applications

React.js | Next.js | Node.js | Python | MySQL | MongoDB

- Developed responsive business interfaces and backend services.
- Integrated frontend applications with REST APIs.
- Implemented authentication, data management, and business workflows.

EDUCATION

Bachelor of Science in Software Engineering

Arba Minch University, Ethiopia

CGPA: 3.29 / 4.00

ADDITIONAL STRENGTHS

- Backend and API development
- Problem solving and debugging
- Database design and data management
- Business process automation
- Full-stack application development
- IT troubleshooting and technical support
- Fast learner and continuous technology learner
- Independent work and ownership of technical tasks
- Cross-functional collaboration

- Technical documentation and communication
